Hysterectomy, endometrial ablation, and a prostatectomy (subject to pre-authorisation and clinical guidelines)	R12 055 per admission

Important

This brochure provides only a summary of benefits which are subject to approval by the Council for Medical Schemes. In case of a dispute, the registered Rules of Medihelp apply. Full details of your benefits and the services that are excluded from benefits are contained in the Medihelp Rules, which are available on request.

Virtual care expands the GP network

Medihelp has partnered with Clicks, Dis-Chem, and participating preferred pharmacy clinics to give you access to quality care through registered nurses and video consultations with network doctors.

Hospital network and day procedure network

Medihelp makes use of a quality network of hospitals and a day procedure network where you can receive services at negotiated tariffs. These facilities have been matched with the national footprint of members and the network specialists who operate in these facilities.

Acute hospital network

Make sure your specialist works at your network hospital

Certain specialists only admit patients to the hospital where they have their consultation rooms or perform surgeries. Members of MedMove! must therefore make sure their specialists operate at network hospitals.

Day procedure network

All day procedures and procedures as pre-authorised must be performed in the MedMove! day procedure network.

Finding a acute hospital or network day procedure facility

Medihelp's website has an updated list of network hospitals and day procedure facilities, as well as network specialists. Visit www.medihelp.co.za and use the provider search function, or log in to the **Member Zone** or download the **Medihelp member app** for Apple and Android devices from your phone's store.

You can scan the QR code to find a provider.

Pre-authorising hospital admissions

Planned admissions

Members must pre-authorise all hospital and day procedure facility admissions well in advance, since we may need more information from the doctor, such as test results or reports.

Information we need for pre-authorisation

- Membership number and details of the patient.
- The procedure and diagnosis codes (get these from the doctor).
- The treating doctor's details and practice number.
- The details and practice number of the hospital where the patient will be admitted.
- The admission date and time.
- For certain procedures, additional information may be required, such as medical reports, X-rays or blood test results. Medihelp's pre-authorisation consultant will tell you what we need.
- Details of the anaesthetist.

Emergency admissions

Authorise on the first workday following the emergency admission.

Authorisation platforms

Visit the **Member Zone** to upload the referral yourself – it's quick and easy.

hospitalauth@medihelp.co.za

Use the **Medihelp member app** and select e-services to request pre-authorisation

Dental procedures

Contact Dental Risk Company (DRC)
Tel: 087 943 9618
Email: auth@dentalrisk.com

Avoid co-payments

- Pre-authorising planned procedures will ensure that you won't have a 20% co-payment.
- If you voluntarily admit yourself to a non-network hospital, you will have a 35% co-payment on the hospital account, while a R12 875 co-payment will apply for voluntary admission to a non-network day procedure facility.
- All non-listed essential (non-PMB) hospital admissions have a R1 805 co-payment.

What is not covered

Scan the QR codes to read more about exclusions

The following is a summary of healthcare services not covered. It does not apply to services which qualify for prescribed minimum benefits (PMB) or which are authorised by Medihelp. For a detailed list of exclusions, please refer to the Rules of Medihelp.

Services and procedures

- Alcohol, drug, and substance abuse treatment
- Ambulance or emergency vehicle transport not related to a hospital admission
- Appointments for medical services not kept
- Bariatric surgery
- Cochlear implants and related procedures, services and devices
- Cosmetic and reconstructive surgery and treatment
- Emergency room facility fees
- Other medical benefits in the hospital (e.g. physiotherapists, speech therapists, and dieticians) without a referral from the attending doctor
- Large joint replacements and surgery
- Physiotherapy services for the removal of wisdom teeth
- Refractive surgery
- Travelling and accommodation costs, including meals
- Biopsies and fine needle aspirations
- Clinical psychology and psychiatric nursing services
- Diagnostic polysomnograms
- Elective caesarean sections and related maternity services, tests and procedures
- Excision procedures (e.g. lipomas, cysts and benign tumours and lesions)
- Healthcare services rendered in hospital that should be done out of hospital or for which admission to hospital is not necessary
- Injection of diagnostic, therapeutic and anaesthetic agents into nerves and the intrathecal space
- Orthopaedic and spinal procedures
- Minor joint arthroplasty
- Services rendered outside the borders of the Republic of South Africa
- Speech and hearing aids (including repairs and related services), intraocular lenses, artificial eyes, artificial limbs, prostheses required after reconstructive surgery and external breast prostheses and associated services
- Surgery for oesophageal reflux, functional nasal surgery, umbilical, incisional and hiatus hernia repair
- Surgery for skin disorders
- Varicose vein surgery

Medicines, consumables, and other products

- All specialised medicines (including biological and/or biosimilar medicines)
- Medicines used for the treatment of non-PMB/CDL chronic conditions
- Insulin pumps and continuous glucose monitors, including the consumable items required for these devices
- Multivitamin and multi-mineral supplements alone or in combination with stimulants (tonics)
- Complementary and alternative medicines, including homeopathic and herbal medicines
- Implanted hearing devices
- Neurostimulators
